SUBJECTS

(References in *italic figures* are to reviews.)

Abilities, primary, nature of, 107-111.
Abnormal psychology, psychodrama, *147 f.;* psychopathology of emotional behavior, *601 f.;* psychotherapy in childhood, *142 f., 307 f.;* schizophrenic deterioration, *135 ff. See* Textbooks, Psychoanalysis.
Action potentials, integrating and recording equipment, 100-106.
Advertising, structure of, 540-544.
American Association for the Advancement of Science, *see* Meetings.
American Philosophical Society, *see* Meetings.
American Psychological Association, *see* Meetings.
Apparatus, automatically controlled Lashley discrimination apparatus, 414-419; circuit for the measurement of galvanic skin response, 272-274; direct reading frequency-difference meter, 405-409; recording of action potentials, 100-106; measurement of muscular tension during handwriting, 259-267; mechanical factor rotator, 104-106; punch maze, 268-271; Skinner box, 409-414; simulated stereoscopic range finders, 545-552; subject-paced stencil scorer, 552-558.
Association, free and controlled, 535-539. *See* Learning, Retention.
Audition, binaural effects, 205-213; binaural phase difference and pitch variation, 468-486; design of hearing aids, *457 f.;* intelligibility of speech waves, 1-20; methods of studying pitch discrimination, 309-322; pitch discrimination, under masking, 194-204; time errors in, 335-342.
Apparent movement, neural interaction and, 73-78; oculo-gyral illusion, 23 ff.; rotational, 50-58.
Art, social order and, *300 f.;* training, *605.*
Aviation, psychological research in, *602 f.;* air transport design, *449 ff.;* cues in aircraft landing, 323-334.

Blind, *see* Deaf-blind.

Canadian Psychological Association, *see* Meetings.
Color, factor analysis of visibility data, 361-369; vision, in relation to age, 520-526, mass testing, 370-385.
Conditioned response, effects of pretesting with the conditioned stimulus upon extinction of, 243-246; inhibitory set and counter reinforcement in, 37-49, 66-72.
Cue, as a psychological concept, 119-123; in aircraft landing, 323-334.

Deaf-blind, vestibular sensitivity in, 94-99.

Eastern Psychological Association, *see* Meetings.
Editorial announcement, 467.
Education, treatise, *297 ff.*
Efficiency, effect of vibration in reading, 386-390; factors in air transport design, *449 ff.;* treatise, *453 f.;* visual, *301 f.*
Ego, psychology of, *139 ff.*
Esthetics, musical, *144 f.*
Ethnology, *141 f., 150, 306 f., 460 f., 606 f.*
Executive ability, *132 ff.*
Expectation, experimental analysis of, 183-193.

Factor analysis, demonstrational equipment, 104-106; discussion, 286-291; nature of primary abilities, 107-111; of visibility data, 361-369; treatise, *129 ff.*
Fatigue, muscular, *301 f.;* treatise, *299 f.;* visual, *301 f.,* 420-424.
Fellowships, research, in psychometrics, 432.
Figural after-effects, comments on satiational theory of, 282-286; observation of, 291-293; stereoscopic study of, 59-65.
Fisher, Ivy Gertrude Campbell, *see* Necrology.
Food habits, manual for the study of, *459 f.*

Geology, Pleistocene epoch, *605 f.*
Genius, studies of, *146 f.; 443 ff.*

Harvard Report on Psychology in an Ideal University, discussion of, 275-282.
Hecht, Selig, *see* Necrology.
Holway, Alfred Harold, *see* Necrology.
Hypnosis, *608 ff.*

Individual difference, treatise, *447 ff.*
Intellectual functions, frontal lobes and, *440 ff.;* studies of gifted children, *443 ff.*
International Congress of Psychology, *see* Meetings.

Jenkins, John Gamewell, *see* Necrology.

Kinesthesis, psychological scale of weight, 343-351.

Learning, intelligibility of dictated speech sounds, 11-13; spread of effect in rote material, 214-221. *See* Conditioned Response, Retention.

Masking, and binaural relations, 205-213; and pitch discrimination, 194-204; of speech sounds, 7-11.
Medicine, history of, *451 ff.;* music and, *595 ff.;* problem of adequate medical care, *461 f.*
Meetings, American Association for the Advancement of Science, 293; American Philosophical Society, 432; American Psychological Association, 123-124, 579-580; Canadian Psychological Association, 582-583; Eastern Psychological Association, 427-430; Midwestern Psychological Association, 426-427; National Academy of Sciences, 431-432; Rocky Mountain Branch of the American Psychological Association, 430-431; Society of Experimental Psychologists, 426; Southern Society for Philosophy and Psychology, 580-581; Twelfth International Congress of Psychology, 576-579; Western Psychological Association, 124-125, 581-582.
Midwestern Psychological Association, *see* Meetings.
Motivation, treatise, *601 f.*
Motor functions, accuracy of positioning reactions, 167-182; measurement of muscular tension during handwriting, 259-267; muscular contraction, symposium, *458 f.;* precision of linear pursuit movements, 502-510.
Müller-Lyer illusion, time error and, 229-235.

National Academy of Sciences, *see* Meetings.
Necrology, Ivy Gertrude Campbell Fisher, 584-585; Selig Hecht, 126-128; Alfred Harold Holway, 586-588; John Gamewell Jenkins, 433-435.
Nervous system, commentary on new edition of Sherrington's *Integrative Action,* 562-573.
Nicotinism, 424-425.
Noise, effect on intelligibility of speech, 1-20, pitch discrimination, 194-204.
Nonsense syllables, recognitive value, 352-360. *See* Learning.

Oculo-gyral illusion, 23; illusory rotation as special case of, 50-58.

Perception, apparent movement in absence of neural interaction, 73-78; art education, *605;* distortion of lines in geometric fields, 153-166, 573-575; figural after-effects, 59-65, 282-286, 291-293; illusory rotating, sweep, 400-404; illusory visual rotation, 50-58; oculo-gyral illusion 23 ff.; reorientation of visual figures, 487-501; the concept of cue, 119-123; the rôle of binocular cues in aircraft landing, 323-334, of grouped digits, 396-399; time error and the Müller-Lyer illusion, 229-235.
Periodicals, 583-584.
Personality, myopia and introversion, 575-576; of the preschool child, *134 f.;* treatises, *436 ff.*
Philosophy, system of, *308.*
Positioning reactions, accuracy of, 167-182.
Primary abilities, critique, 107-111; treatise, *129 ff.*
Proactive inhibition, demonstration of, 391-395.
Probability, estimation of, 183-193.
Production, psychology of, 453 f.
Psychoanalysis, critique, *145 f.;* interpretation of dreams, *307;* lectures on, *137 ff.;* popular treatment, *461.*
Psychodrama, *147 f.*
Psychology, American, lines of intellectual influence in, 527-534; analysis of Harvard report on, 275-282; atlas, *608;* current trends in, discussion of conference on, 111-118; professionalism in, 111-118; Twelfth International Congress of, 576-579.
Psychophysics, binaural relations, 205-213; masking and pitch discrimination, 194-204; methods of studying pitch discrimination, 309-322; psychological scale of weight, 343-351; semicircular thresholds, 21-36; of speech, 1-20; taste-thresholds for sodium hydroxide, 90-93; time error, and the Müller-Lyer illusion, 229-235, in

pitch discrimination, 335-342.
Punctuation, psychology of, 222-228.

Reading, and visual fatigue, *301 f.*; effect of vibration on, 386-390.
Reinforcement, in eyelid conditioning, 37-49, 66-72; spread of effect in rote learning, 214-221.
Retention, demonstration of retroactive and proactive inhibition, 391-395; recall and recognition as measures of, 511-519; set as a determinant of retroactive inhibition, 236-242.
Retroactive inhibition, demonstration, 391-395; set as a determinant of, 236-242.
Rocky Mountain Branch, American Psychological Association, *see* Meetings.
Schizophrenia, deterioration in, *135 ff.*
Selection, of executive personnel, *132 ff.*
Set, as a determinant of retroactive inhibition, 236-242; inhibitory, in eyelid conditioning, 37-49, 66-72.
Sexual behavior, *303 f., 607.*
Social processes, art and the social order, *500 f.*; culture and personality, *456*; ethnological studies, *141 f., 150, 306 f., 460 f., 606 f.*; fashions in the use of punctuation, 222-228; newspaper size and circulation, 79-89; readings in social psychology, *304 f.*
Society of Experimental Psychologists, *see* Meetings.
Southern Society for Philosophy and Psychology, *see* Meetings.
Speech-waves, intelligibility of rectangular, 1-20.
Taste, absolute thresholds for sodium hydroxide, 90-93.
